J. & P. Modern Perennials

Gain a Year—Plant This Fall

NOW is the ideal time to order and arrange to plant many of the fine newer Perennial Flowers, whose roots will become established yet this fall and be ready for robust growth the minute the frost leaves the ground in the spring. These are the days when it is so easy to see older plants which have outlived their usefulness, and voids to be filled.

Dauntless

Debutante

Desirable

Divine

J. & P. Giant Double Delphiniums

IDEAL in height and habit, these gorgeous new American Hybrid Delphiniums have been hybridized and developed in the rigorous climate of northern New York to be truly hardy, disease-resistant, uniform in growth, truly perennial. They have stiff, wiry stems just the right height and will produce several fine spikes per plant. Every plant you receive has shown its vigor by living through the extreme winter of 1939 in our open fields at Newark, New York, and proved its performance in the glorious display of over 300,000 plants in bloom this summer. If the spikes are cut close to the ground after blooming next June, you may have as many as three flowering periods in a season. Order liberally at these low prices, and your plants will be nicely established in early spring.

All Plants in This Folder Sent Prepaid

Jackson & Perkins Co.
Nurserymen NEWARK, NEW YORK STATE

In these pages are those varieties which do best when planted in the fall, or are capable of fall transplanting when it is so much easier to plan harmonious arrangement of habit, height, color, and succession of bloom. All field-grown plants.

An Epoch in Delphiniums

Long years of earnest, faithful effort in the J. & P. Research Dept. have been rewarded at last with fruition of our dream and ambition—a new race of Giant Hybrid Delphiniums, with all-out-at-once 100%-double florets, true separate colors and superb masses of bloom, on strong, wiry, wind-resistant spikes.

Delightful

Six Exquisite Colors

Dauntless

Mauvy-Lavender, compact spikes; extends season by blooming two weeks later than Divine. Many 4-ft. spikes.

Debutante

Clear, sparkling **White** in exquisite contrast to the blues and other July flowers; also lovely by itself. Height, 4 ft.

Delightful

Definitely **Blue**, the "deeper" Delphinium blue heretofore difficult to get and keep—but here it is, and it will last. The color may vary a trifle. Height, 4 ft.

Desirable

Deep Violet with white eye—the distinctive violet purple brings a royal note and rich accent to the garden, and the color holds. Height, 4½ ft.

Divine

Rose-Mauve, wide-based pyramidal spikes on stately plants especially tall, 5 to 5½ ft. high.

Each Variety Above: 60c ea.; 3 of a kind for \$1.50; 10 of a kind for \$4; 25 of a kind for \$8.75; 100 of a kind for \$35

Enchantment

New for 1941—Limited Quantity Now Ready

The true Delphinium **Light Blue**, enchanting in its loveliness. The double flowers are closely held on 4 ft. spikes, and the side spikes follow to give a long period of bloom. Height, 4 ft. Be sure to include Enchantment. 75c each; 3 for \$1.85; 10 for \$5.50.

Delphinium Palette—All Six Colors Above

Group No. 75	6 Plants, 1 of Each (value \$3.75) for only . . .	\$3
Group No. 76	24 Plants, 4 of each (value \$12.47) for only . . .	\$10

Belladonna Delphinium

Velvet Blue Cave

For years we have been seeking a healthy garden form of the Blue Cave color, and confidently offer this, which we first introduced in the spring 1940 plantings. A rich **purple-blue** Delphinium of Belladonna type with glorious, mildew-resistant dark green foliage and a free, branching habit. Very free blooming. The best of the deep-colored Belladonnas. Height, 4 ft. **3 for \$1.**

Clividen Beauty

This choice variety is an outstanding form of the delightful airy Belladonna in a beautiful shade of true Delphinium **light blue**. You can hardly believe the wonders it will do for your garden—a bit of heaven among your flowers. Grows to 4 ft. **3 for 85c.**

Delphinium, Pink Sensation

PLANT PATENT No. 324

(Spring Delivery Only) **\$1 each; 3 for \$2.50; 12 for \$10.**

Pink Sensation is the only true pink perennial Delphinium in existence. Moreover, a plant that lives up to the highest standards of strength, hardiness, and prolific growth. Reaching a height of 3½ ft. with numerous laterals, it continuously throws out new spikes of a lovely airy **pink**, giving as many as four flowering periods in a season. An exquisite contribution to bouquets. Jackson & Perkins are proud to have been selected by the great Dr. Ruys of Holland, its originator, to distribute this enchanting new Delphinium in the U. S. If desired, we will accept your order now at next year's new low price, to be sure of delivery to plant in the spring.

Pink Sensation

Early Chrysanthemums

These fine plants usually start to grow immediately after being planted, and easily establish themselves to withstand the winter, with only slight care in mulching with hay or straw the first winter. It is easy to see now just where each of these fine varieties will look best in your garden.

Even now, these glorious flowers would be blooming in your own garden had you planted them last fall, or early this spring. Tremendous advances have been made in creating new strains of Hardy Garden Chrysanthemums, both to advance the blooming dates and to increase hardiness. The varieties we offer are so satisfactory that fall is a fine time to plant, and you will have bigger, huskier plants that will reward your attention now with more and better blooms next August and September.

Algonquin

A radiant, double, **yellow**, 3-in. flower which is borne freely from early September on. Fine, clean foliage. Grows to 30 in. in height. The best of our early yellow double varieties—a delight in garden or vase. **3 for 90c.**

Clara Curtis (Rubellum)

Here's a charming new type of hardy Chrysanthemum with lovely masses of 3-in., single, **rosy pink** flowers starting in early August. The blooms carry on through frost until very severe weather. Beautiful for mass planting, and they keep indefinitely as cut-flowers. Delightfully fragrant. Well rounded bush 20 in. tall. **3 for \$1.**

Early Bronze

A very long-lasting, double, **bronze**, semi-pompon flower that is tops for garden and cut-flower use. Anxious to please, it begins blooming the end of August. Grows 24 in. tall. **3 for 65c.**

Manantico

An early, **red**, semi-double flower that is unusually bright and effective. It blooms from early September until frost. Plant grows 18 in. tall. Animates every dreary fall day! Very decorative, both in the house and out. **3 for 90c.**

Lavender Lady

This new and beautifully shaped **lavender-pink** Chrysanthemum simply must grace your garden. It is stately in form and appearance, and its lovely color is rare. The flowers are 4 in. across, and are equally effective in daylight or under electric lights. Three of them make a bouquet. Blooms begin the end of September. Grows to 24 in. in height. **3 for \$1.**

DWARF BEDDING (CUSHION)

Pygmy Gold

A golden yellow carpet! This is one of our favorites. It blooms from August to frost, and has small, double, pompon flowers in successive masses. Grows 18 in. tall, and the shoots are plenty long for cutting. **3 for 75c.**

Pink Cushion

A wide favorite, wonderful for garden effects. Plants are rounded like a true cushion, and each bears hundreds of double flowers, starting the end of August. Lovely along driveways or in borders. Grows 20 in. tall. **3 for 75c.**

More Favorites for Fall Planting

SOON come those lovely mornings with the fall feel in the air, when all mortals blessed with "green fingers" again feel the irresistible urge to plant. And what could be more pleasing to Mother Nature, for Autumn is the ideal time of year to plant some of the finest Perennial Flowers which will remain to grace your garden for many years.

For well-established borders and beds next spring and summer, we have included in this selected list those which by experience have been proved to benefit from planting in the fall. As experienced gardeners know, much time is thus saved. In spring, a thousand different tasks press for immediate attention. Now, you not only put the plants in weak spots still fresh in memory from studying the summer and fall bloom, but you also insure robust, well-developed plants with no open spaces even the first season. Here is your answer to the problem of bulb shortages this fall.

Fall plants should be mulched preferably with straw or marsh hay so the ground is covered, to prevent alternate thawing and freezing. Complete, simple instructions for planting and care will be sent gladly, with your order. If followed, we guarantee results and will replace next spring what plants you were unsuccessful in wintering.

Fire Opal

Geums

Fire Opal

A recent introduction, and a worthy one! Dazzling **scarlet-bronze**, unexcelled for late spring. The flowers are large. Very free blooming—more flowers keep appearing all summer. **40c ea.; 3 for \$1.**

SPECIAL Three Geums Group No. 83

3 Plants,

1 of each of the 3
fine colors above
(Value \$1.30)
only **\$1.15**

We are proud of this new race of Hardy Geums introduced by J. & P. Spring blooming, they may be planted in either sun or half shade. The flowers are larger and long lasting; the foliage is lustrous green all summer. Favored for boutonnières. Easy to grow, invaluable for borders, beds and rockeries. Plant now for a glorious display next May and June.

Princess Juliana

Masses of pure **orange-yellow** flowers from May-June, the largest blooms of this hardy Geum group. Invaluable for the spring flowers; effective all summer with its rich dark green foliage and occasional blooms. **40c ea.; 3 for \$1.**

Red Wings

New for 1941—brilliant **strawberry-red** with yellow anthers. Now we have a bright red in this new group. Very free flowering; rich dark green foliage all summer. 2 ft. blooms June-July and intermittently all summer. **50c ea.; 3 for \$1.25.**

Helenium, Chippersfield Orange

An **orange-red and yellow** hue in one of the gayest of all fall flowers! Striking in bouquets and longlasting in the garden. A special virtue is restrained growth of not over 4 ft. rather than to reach the very tall stages of the old-fashioned varieties. They bloom profusely in August and September. **3 for \$1.**

Gypsophila

Bristol Fairy

This tall-growing, double **white** Baby's Breath is a joy in any garden—gives a lacy pattern that can't be obtained in any other way. Blooms start in June. Plants grow 20 to 24 in. high and about the same width.

Rosy Veil • Repens

A lower-growing, double Baby's Breath which forms a heavy mat of double **pink** flowers from which many bouquets can be made. Blooms during June and July, with a few blooms in the fall. Height, about 18 in.

Either of Above: 50c ea.; 3 for \$1.25

Heliopsis

Summer Gold

(Hardy Zinnia)

This is the first year we have offered this fine new variety. One of the most effective summer flowering plants that bring a bright and cheery spot of **rich gold** which never fails to attract attention—at a season when many gardens need more color. The picture at right shows just a few plants at one corner of the test block in our nursery fields this summer. The excellent daisy-like semi-double flowers are 4 in. across, borne very profusely from June till frost. They last a long time in bouquets. After first bloom the plants should be cut back immediately for another crop which repeats very quickly. 3 ft.

Summer Gold—Hardy Zinnia

3 for \$1; 10 for \$2.50

Heuchera • Coral Bells

Matin Belles New for 1941

Be sure to include some of these fine plants in your order this fall. A real advance of which we are proud—very free blooming with larger, **deep rosy pink** bells on fine flower stalks for six weeks. Dainty in bouquets; the flowers keep very well. Blooms from late spring into July. Beautiful foliage all summer. 18 in.

Queen of Hearts New in 1940

Much larger bells and a **deeper red** than the popular Rain of Fire. Wonderful at the front of the border and in the rock garden. You may also wish to grow some separately for cutting.

Either of Above: 50c ea.; 3 for \$1.25;
10 for \$3.50

Physalis • Giant Chinese Lantern

Giant Globe

You have longed to grow the giant Chinese Lanterns sold by florists. Here is the plant you want, doing well in poor soil and unused portion of the garden and should be so placed; lanterns almost twice as large. 3 for 85c.

Trollius

Golden Queen

Another flower which has gained real popularity in recent years, possessing many of the desired features of Ranunculus but perfectly hardy and far easier to grow. For sheer, lovely **gold**, nothing quite equals Trollius Golden Queen. Quite tall, almost 30 in. Plant in semi-shaded ground which remains fairly damp. Blooms prolifically in July.

50c ea.; 3 for \$1.25; 10 for \$3.50

Lythrum • Salicaria

The Beacon New for 1941

Here is another new introduction for 1941 we especially urge you to plant this fall so as to get full enjoyment from the established plants in your garden next summer. Much more showy than the older Lythrum Rosea used so much in mass plantings in spite of not having a clear color. The neat long-lasting clear **deep carmine-red** flowers are borne on large spikes, followed with side spikes almost to the ground. Very versatile, thriving equally in wet semi-shade and open, dry, sunny locations. 3½ to 4 ft. Blooms continuously, July to frost.

50c ea.; 3 for \$1.25; 10 for \$3.50

Veronica

Blue Spire

Very desirable **deep blue** spikes in early summer and repeats later if cut off after the first bloom. An improved variety and seedling of V. subsessilis. Blooms well every year. 24 in. 3 for 75c.

Vinca Minor

Bowles

A far superior form of one of the most popular ground covers for banks, shady or unsightly spots, with repeating blooms of **Alice-blue** flowers, and much larger flowers than old varieties. Most satisfactory of all flowering ground-cover plants; the foliage is always clean, never rusting or turning brown.

10 for \$2; 100 for \$18

The Beacon

All J. & P. Modern
Perennials Are Guaranteed

Special Values That Bring Double Rewards to Gardeners Who Are Foresighted Enough to Plant This Fall

IN addition to the many special group offers on other pages of this folder, here are more specially selected assortments, every one of which will add to your garden pleasure next year. All are recommended for the favorable fall planting season, for you to have earlier, larger and more bloom in 1941 than if you waited till spring to plant.

Hardy Asters

(Michaelmas Daisies)

Now is a splendid time to observe the need for color where Fall Asters are ideal. And it is the ideal season to order and plant, for a prolific mass of garden color and an abundance of cut flowers next fall. From the rampant wild Asters of the fields, patient horticultural skill has brought to American gardens these modern beauties, so easy to grow, with immense flowers and brilliant colors for a splendid autumn display and pleasing cut flower arrangements. You cannot fully appreciate them until you grow them.

Beechwood Challenger

A new and finer **red** Aster, clearest in color—deep strawberry with bright yellow center disc. Grows vigorously to about 4 ft., and blooms in September. You will love it all fall for its remarkable gaiety and brilliance. **3 for \$1.**

Frikarti

Light blue-lavender flower accentuated with a prominent yellow disc—it's the long cherished Aster, Wonder of Staefa. Provides a colorful spot in your garden from early August until frost. Perfect for cutting, too. Flowers are 3 in. across; plant is 2½ ft. tall. An outstanding novelty. **50c ea.; 3 for \$1.25.**

Gayborder Blue

This decorative Aster is most suitably named, for it is a clear, **intense blue** and has a bright yellow eye. The individual flowers are large and add infinitely to the effect of both garden and bouquets. It's No. 1 for general usefulness. Open, pleasing habit of growth—5 ft. plants. Blooms middle of September. **50c ea.; 3 for \$1.25.**

Harrington's Pink

This lovely clear **salmon-pink** form of our Novae-Anglae Aster is the result of a lifetime of selection and hybridizing. But it was worth all the time and effort—a fact which you will appreciate once you have it in your garden! Clean dark green foliage. Plants grow 4½ ft. **3 for \$1.**

Mount Everest

This new **white** Aster is everything its name suggests—clean and neat in appearance; grows in tall, well-shaped, pointed pyramids, with abundant lateral growth flowering right down to the ground. It's a delightfully refreshing flower—the finest of the whites. Ultimate height, 4 ft. **3 for \$1.**

Strawberries and Cream

An outstanding novelty. Flowers first appear as a **deep pink** with golden eye, softening in tint as blossoms open. Contributes the gentle, yet precise color needed to blend in so many gardens. Height, 4 ft. **3 for \$1.**

Pink Bouquet

Sunset Glow

The deep **rich pink** of the afterglow of a fall sunset, this beautiful Aster gives you positive color wherever you need it—a very useful variety. Compact in habit. Grows to 3½ ft. Be first to have this delightful new Aster—you will enjoy it tremendously. **50c each; 3 for \$1.25.**

Novae Belgae, Blue Gown

New for 1941—Autumn is the time for color in the garden and the blue colors are supplied by the modern fall asters. Blue Gown is tall growing, 5 ft., arching, branched and has masses of large **dark blue** flowers. It has the Climax habit and blooms later than most, beginning after September 15. Finest of the lates. **75c ea.; 3 for \$1.85.**

For best results with the tall varieties, limit each plant to one or two good shoots.

DWARF VARIETIES

Lilac Time

A fine addition to the introductions of recent years. Compact rounded bush, with beautiful soft **lilac-blue** flowers. Grows to 24 in.

Niobe

Exquisite ball-shaped plant, covered with sparkling flowers of **purest white** with bright yellow centers. Grows to 15 in. high.

Ronald

Rose-pink buds unfold into delightful, bright **lilac-pink** flowers. Charming, feathery plant—grows to 18 in. high.

Pyrethrum, Pink Bouquet

New in 1940

Originated in Our Own Nurseries

So you may enjoy this wonderful novelty at its best next summer, we have gone to special pains to dig and pot up selected plants for your garden, to be sure you can transplant safely this fall and we can guarantee your plants will live and bloom; we are not offering Pyrethrum plants for fall transplanting except in pots.

Here is the exquisite new double **pink** Painted Daisy you have long wanted, with from five to eight large 4-in. flowers to a stem! Unlike so many varieties, the petals stand straight out and the stems upright in all kinds of weather. The outer petals a deep rosy pink, with centers **soft pink**. Pyrethrums have enjoyed greatly increased popularity in the past few years, and such a greatly improved variety as Pink Bouquet bids fair to win even wider favor. Hardy and easy to grow, colorful in the border, splendid for bouquets. The blooms come in May and last through June. 30 in. stems.

65c ea.; 3 for \$1.75; 10 for \$5.50; 100 for \$45.

JACKSON & PERKINS CO., Nurserymen... NEWARK, NEW YORK STATE

J. & P. Perennial Phlox

CLUMPS of three or more give zest to a border and in masses they produce summer color that is unexcelled. A "must" in any well-ordered garden. We particularly recommend these 1940 introductions, as well as the selected favorites below. It is an excellent plan to transplant in fall.

Blue Boy

The best **deep blue** Phlox ever produced, free blooming; large individual flowers. Growth is low and bushy—about 24 in.

Harvest Fire

A rare beauty; mammoth **salmon-orange** heads branching from the bottom; large individual flowers. The cleanest, healthiest foliage we know. Long period of bloom. 30 in.

Salmon Beauty

Rich **salmon-pink** with large white eye. Soft in tone, yet positive in effect. 30 in.

Each of Above Varieties: 40c ea.; 3 for \$1; 10 for \$2.50

Blue Boy
